

3rd International Symposium on
Energy **C**hallenges & **M**echanics
- towards a big picture

7-9 July 2015
Aberdeen, Scotland, UK

Speaker of Session 07

ENERGY AND ENVIRONMENT

Naoum Jamous, studied Computer Science – Information Systems in the University of Balamand, Lebanon, gained his doctorate at the Department of Technical & Operational Information Systems (ITI) in Business Informatics at the Faculty of Computer Science at the Otto-von-Guericke-Universität Magdeburg (OVGU).

In 2005, he started his professional career with Syrian-German scientists and expert teams; he played a major role in founding the Wadi International University (WIU). Since 2008 he is working as a scientific researcher at the Business Informatics group at the Faculty of Computer Science at the Otto von

Guericke University (OVGU) in Magdeburg.

Additionally, Naoum Jamous held several lectures as a guest lecturer at several universities around the world and he is lecturer Otto von Guericke University (OVGU) in Magdeburg.

He is a member of international scientific congresses, and a reviewer of several national and international scientific congresses and journals.

His main research interest lies in IT project management, Information System Architecture, Investigating and analysis of Business Process Modeling, management in ICT infrastructures and ERP technology. His Doctorate thesis dealt with the Environmental Management Information Systems (EMIS) for Small and Medium-sized Enterprises (SMEs).
