

4th International Symposium on
Energy **C**hallenges & **M**echanics
- working on small scales

11-13 August 2015
Aberdeen, Scotland, UK

Speaker of Session 13

MICROORGANISMS FOR ENERGY APPLICATIONS

Joseph Koussa is an Assistant Instructor at New York University in Abu Dhabi since 2011. He received his Bsc at University of Ottawa, and his Msc. In Molecular biology from the Lebanese American University.

He joined the Laboratory of Algal, systems and synthetic biology at NYUAD and has been involved in the biofuel research using the microalga *Chlamydomonas reinhardtii* as a model organism and is currently applying a set of computational and molecular tools to optimize this organism for lipid production.
