

4th International Symposium on
Energy **C**hallenges & **M**echanics
- working on small scales

11-13 August 2015
Aberdeen, Scotland, UK

Speaker of Session 18

MECHANICS OF NANOPOROUS MATERIALS FOR ENERGY APPLICATIONS

Dr. Yasuo Iizuka has retired Kyoto Institute of Technology (Associate Professor) in 2010, and Advanced Industrial Science and Technology (AIST), (Invited Senior Research Scientist) in 2014. However, he still continues to study chemistry with curiosity. He received Ph. D. Degree from University of Tokyo in 1997. His special feature of a chemist is that he worked in Asahi Glass company from 1972-1975 as a engineer of chemical plant for the production of phosphoric acid..

He has devoted to elucidate the origin of the high catalytic activity of gold catalysts since 1993 with Professor Dr. Masatake Haruta of Tokyo Metropolitan University.

4th International Symposium on Energy Challenges and Mechanics
- working on small scales
11-13 August 2015, Aberdeen, Scotland, United Kingdom
