

Speaker of Session 23

THIN FILM TECHNOLOGY FOR ENERGY APPLICATIONS

Yegana Aliyeva is PhD student at the Institute of Physics Azerbaijan National Academy of Science. She joined the Institute of Physics after graduation from Physics Department of Baku State University (BSU) in 2006. She received her Master degree in physics in 2012 at the Institute of Physics.

She is a specialist on technology of thin films for solar cell application and study of their properties.

Her scientific activity is reflected by about 10 papers in this field.
